

BIOGRAPHY

Captain Mohd Zailani bin Abdul Razak, age 47 is both an experienced mariner and passionate maritime industry practitioner. He graduated from the Maritime Academy of Malaysia with the highest qualification of Class 1 Certificate of Competency which carries the title of Master Mariner. In his pursuit of knowledge, he attended the National University of Singapore (Business School Executive Course). He is a holder of the International General Certificate in Occupational Health and Safety from The National Examination Board in Occupational Safety and Health, United Kingdom.

With international accreditation as an Offshore pilot and LNG Marine Captain, he is also among the few Malaysians awarded the Pilot License for Brunei SBM and LNG Terminal operations.

During his free time, he is a passionate Chief Pilot and Simulator trainer that is keen to impart the knowledge he's gained and pilotage skills to the next generation.

He was also accredited by OCIMF which allowed him to become an Offshore Vessel Inspector back in 2008.

He started his love for the sea as a seafarer onboard the VLCC, LNG, LPG and other types of vessels. He then chartered his offshore and onshore-based career with Brunei Shell Petroleum. He was the lead marine subject matter expert and advisor dealing on matters relating to offshore terminal operations, mobile offshore units, marine assets controller, HSSE matters etc.

His venture into business began in late 2010, when he founded Satumarin Sdn Bhd. His early success was as the Marine Advisor for Leighton Offshore during the first SBM installations and offtake operations in Iraq. Under his leadership, Satumarin is now a successful maritime contractor servicing both domestic and international based marine and offshore companies. The company clients and operations extend to Brunei, Indonesia, Philippines, Singapore and UAE. He is personally recognized and acknowledged as a learned maritime practitioner by key oil and gas companies such as Shell International, EQ Petroleum, Sea Hibiscus, Brunei Shell Petroleum, Iraq South Oil Corporation, Hengyi (B) Pulau Muara Besar Terminal etc where he had been appointed as their Marine Technical Advisor, Operation and Contract Specialist. As his passion is doing business, besides marine, he is involved in a wide range of businesses and co-founded many start-up companies. Captain Zak, as he is fondly known, has also spent many hours in various social and charitable works with NGOs.
